DISPATCH NO. HUL-A- 918

~~RYBAT/PB SUCCESS/SECRET  
CLASSIFICATION~~

26 MAY 1954

TO ACOS, [ ]  
FROM LINCOLN  
SUBJECT { GENERAL  
SPECIFIC Operational Matters  
Processing of SEMANTIC Reports

REF: HUL-A-845, 19 May 1954

1. There have been recent occurrences in which LINCOLN has received identical SEMANTIC and SLEEKER reports from [ ] and Guatemala City. This represents an unnecessary duplication of effort and should be discontinued.

2. Under the present communication system the bulk of the material from SEMANTIC, SECANT and SLEEKER passes through the Guatemala station, which forwards the originals to [ ] and copies to LINCOLN. When [ ] notes that this has been done there is no need to prepare separate reports for LINCOLN except in those instances, of course, where something can be added or an evaluation will be of assistance.

3. In the future Guatemala should clearly indicate on all dispatches of this nature that copies of all documents have been sent to LINCOLN. If because of lack of time or other reasons Guatemala is not able to prepare and send such copies, this should be so stated and it then becomes the responsibility of [ ] to see that LINCOLN receives them.
